

Case Study

AllGoVision's Video Analytics being used in Oil & Gas industry to curb security threats.

Benefits

By implementing a holistic security risk management methodology, security solutions can be adapted to the changes in threats and security risks, and the levels of investment can be adjusted in accordance to the protection required.

AllGoVision has helped one of the largest oil refineries in India i.e. Bharat Oman Refineries Limited (BORL) meet their challenging security requirements. Neural Integrated deployed AllgoVision's Security and Suspicious Incidence, integrated with Indigovision control center and Indigovision IP camera were deployed to meet BORL's need.

AllGoVision's Security and Suspicious Incidence allows BORL's authorities to identify and restrict access to sensitive areas via video analytics, track suspicious people and vehicles. Furthermore, the perimeter is also protected by AllGoVision' features like Tripwire and Trespass.
