

## Privacy Masking

AllGoVision also provides a highly efficient feature which detects and masks human faces so that the privacy is maintained for general public who are subject to video surveillance. The monitoring process shows the masked video whereas the unmasked video is also backed up for forensic analysis requirements which may come eventually.

Illegal Parking Detection

Privacy Masking

## Benefits

To identify a CCTV monitoring zone, LTA has painted lamp posts or sign posts within CCTV monitoring zones with an orange vertical strip. In these zones any vehicle when parked for more than 2 minutes would raise an alarm for the traffic management personnel to take necessary actions. Compared to a video surveillance with only cameras, the application of Video Analytics in this case has provided Effectiveness and Cost Efficiency in the process. While the accuracy is more than 90%, the general public are assured of their privacy protection in the surveillance process.

## About AllGoVision

AllGoVision group started in 2009 and became an independent company AllGoVision Technologies Private Limited in 2016. Headquartered in Bangalore with branches in the US and Dubai, AllGoVision is a leading video analytics software and has a global spread of sales partners, with proven installations worldwide. We have dedicated ourselves into in-depth research and product innovation. AllGoVision video analytics software is equipped with 40 plus basic and advanced Video Analytics features. It is an Open Platform Analytics integrated with many VMS manufacturers. AllGoVision focuses on providing following benefits to its customers – robust performance, cost efficiency, ease of use and customization.
